**REMARKS**

Claims 42, 43, 45-53 and 58 were allowed. Amendments are made in the specification to make the Tables added by Examiner's amendment correspond to the text of the Tables in the application as filed. No new matter is introduced.

Applicant discovered in the process of reviewing the Examiner's Amendment that the Tables from the parent application included some different sequence ID NOS and a slight difference in one sequence from the above-identified patent application. Applicant has proposed changes to correct the sequence ID NOS in Tables 1, 2, 3 and 9, and to correct the sequence of SEQ ID NO:12 in Table 9. If the amendments are entered, the tables will be consistent with the Tables in the specification as filed.

This amendment is filed after mailing of a Notice of Allowance and prior to payment of the issue fee. No petition or fee is required under 37 C.F.R. § 1.312(a).

Applicant solicits the favor of a recommendation by the primary examiner and approval by the Commissioner, to enter the amendment above.

Respectfully submitted,

Helen C. Lockhart, Reg. No. 39,248
